Flexiroam Limited (ASX: **FRX**) (**Flexiroam** or the **Company**) is pleased to announce that it has received firm commitments to raise \$2 million through a strongly-supported share placement (**Placement**) to accelerate its market growth and continue to invest and innovate in areas of technology to strengthen its future potential.

The Placement will comprise the issue of approximately 86 million fully-paid ordinary shares at \$0.023 per share. Use of Funds

The proceeds from the Placement will be applied towards:

- commercialisation, acceleration of market growth and further development for Flexiroam Solutions, an Internet of Things (**IoT**) connectivity solutions platform;
- supporting and capturing travel sector recovery; and
- general working capital purposes.

Management Comment

Flexiroam's CEO and Managing Director Mr Jeffrey Ong said: "We are delighted to see the market responding so strongly to our capital raising. This Placement is significant as the Company will now have more resources to accelerate the development and commercialisation of Flexiroam Solutions, particularly in the area of cellular connectivity technology for payment service providers within Asia. We are also very excited over the recent news of vaccines for COVID-19 being commercially available, providing travel sectors more certainty on shorter term recovery."

"We welcome all new shareholders arising from this Placement and thank our existing shareholders for their continued support."

Following completion of the Placement, Flexiroam will have ~3 million in cash reserves and a total of 496,334,500 fully-paid ordinary shares on issue.
