

FLEXIROAM

Job Description: iOS Senior App Developer

We are Flexiroam. We value honesty, transparency and we hold ourselves to the highest standard of excellence. We recognize that the small things count, and they all add up to make a difference. Our customers get our full attention, and we keep pushing until we deliver the best solution possible.

By joining our team, you are joining our mission to building a world class technology company that connects people and machines everywhere. Surround yourself with highly motivated and passionate people who have an insatiable appetite for global expansion and personal development.

Responsibility: -

- Developing new features and user interfaces from wireframe models
- Ensuring the best performance and user experience of the application
- Fixing bugs and performance problems
- Writing clean, readable, and testable code
- Cooperating with back-end developers, designers, and the rest of the team to deliver well-architected and high-quality solutions.

Requirement: -

- Minimum 4 years of experience on App Development
- Extensive knowledge about mobile app development. This includes the whole process, from the first line of code to publishing in the store(s)
- Deep knowledge of **iOS Native App**
- Proficiency with writing automated tests in **JUnit, Espresso, Mocha, Jest, Enzyme, XCTest, etc. depending on the libraries you use to test.**
- Familiarity with RESTful APIs and mobile libraries for networking, specifically **Retrofit, axios, Alamofire, etc.**
- Familiarity with the JSON format
- Experience with profiling and debugging mobile applications.
- Strong knowledge of architectural patterns—MVP, MVC, MVVM
- Familiarity with Git
- Familiarity with push notifications
- Understanding mobile app design guidelines on each platform and being aware of their differences
- Proficiency in **Swift/Objective-C, whichever language you use in the app.**
- **Integrations that will involve (Apple ID, Facebook, Firebase, etc.)**
