

FLEXIROAM

Backend Javascript Engineer (Mid/Senior)

About Flexiroam:

We empower our product squads to solve hard problems – customer problems and business problems – in ways that our customers love, yet work for our business. Our product squads are cross-functional and durable, generally composed of a product manager, a product designer, and several engineers.

We staff our product squads with the skills necessary to come up with effective solutions that are valuable (our customers choose to buy or use), viable (the solution works within the many constraints of the business), usable (the user can figure out how to use) and feasible (our engineers have the skills and technology to implement).

About the role:

As a Backend Engineer on a product squad, you are responsible for our products backend services duties, from developing to shipping complex applications and services to production. The Backend developer's responsibilities include also optimizing applications, improving scalability, performance, reliability, and proactive approach to planning the technical architecture of our products.

What you'll be doing:

- Develop new products, features to Flexiroam products in a secure and performant way
- Deliver clean, testable and maintainable code to ensure functionality as well as the quality of the product
- Analyze, maintain and improve scalability, performance and reliability of our products
- Collaborate efficiently with product managers and other engineers
- Own the problem and make your own decisions - take responsibility end to end
- Mentored and train other team members on design and coding techniques

Necessary Qualifications:

- At least 3-5 years of back-end development experience
- Strong proficiency with JavaScript / TypeScript
- Knowledge of Node.js and frameworks available for it
- Experienced building, shipping, and maintaining services and systems on public cloud ecosystem Amazon Web Services (AWS)
- Familiar with databases (PostgreSQL, MySQL)
- Familiar with CI/CD (eg. GitLab, Jenkins)

Diverse perspectives:

We know that innovation thrives on product teams where diverse points of view come together to solve hard problems in ways that are just now possible. As such, we explicitly seek people that bring diverse life experiences, diverse educational backgrounds, diverse cultures, and diverse work experiences. Please be prepared to share with us how your perspective will bring something unique and valuable to our product teams.
